

Feeding for Breeding

Nutrition is one of the most important aspects when raising youngstock. It cannot be emphasised enough how important a constant, balanced diet is for the healthy development of the foal, to avoid growth spurts and maintain a smooth, even growth pattern.

NAF Mare, Foal & Youngstock Supplement

This is a broad spectrum vitamin and mineral supplement, which provides Calcium and Phosphorus in the correct ratio for bone development, with Zinc and Iron present to ensure absorption of those nutrients into the bone. Copper is added for healthy cartilage

formation, Vitamin E and Lysine are also included, the former, to support healthy muscle development, and the latter, the first limiting amino acid in the equine diet to ensure protein is properly utilised. Feeding as directed to the mare and the foal will ensure the correct micro-nutrient, vitamin and mineral levels are provided for optimum development of the foal. From £21.95 www.naf-uk.com

Equine America V-Biotic® Powder

A premium grade, broad spectrum product specially formulated to provide the comprehensive balance of essential vitamins and minerals which may be lacking in your horse's domestic diet. It is also very good for pregnant mares. V-Biotic® contains Echinacea for the immune system, Turmeric for a healthy liver, highly effective probiotics and powerful anti-oxidants, and the very best ingredients to support bone, hoof and muscle tissue and benefit the circulatory system. From £24.90 www.equine-america.co.uk

Local Studs

Pferde Stud

"At Pferde in 2012 we are standing our normal range of stallions including Albany, our foundation stallion for show and competition horses and Thomas of Givendale, a heavy traditional stallion who is homozygous and always provides colour no matter what colour the mare is. He produces cobs and the middleweight hunter working horse with his semen being sent all round the world. So far in 2012, 20 doses have been asked for in Paraguay to start a coloured breeding programme for the heavier type of horse. Pferde Stud offers a unique service for breeders with covering using Natural and AI insemination on site.

Our latest stallion, Farco Van Espriet, carries very rare breeding in a coloured horse. He is by the Belgain stallion Queerly Bet Hero, an International jumping stallion by the World champion of show jumping, Balou du rouet ridden by Rodrigo Passoa. His Dam is by the superb upgrading stallion Lanetto. His first foals show modern quality with huge scope and technique for jumping. Our riding horse and pony stallions are available again, offering a superb cross for the family all-rounder or potential junior performance horse. Last year we had a horse finish sixth at HOYS after a superb first season showing, winning three supreme championships along the way.

We are excited for the arrival of our new foals and are looking for the next champion as already Pferde Stud has won the Foal Futurity Championships in 2009 and 2010. Unfortunately 2011 saw me with a few health issues and a bad broken ankle, so I decided to sell my superb black and white colt so to not risk him at the championships without me."

You can contact Darren for help or advice in all breeding matters via the website www.pferdestud.com

HEATH STUD

Shamley Green, Surrey

HANDELS CLASSIC

2006 AES licensed stallion

Bred in the UK, by Vikki Evans of Classic Showjumpers this stunning young stallion performed outstandingly at the 2009 BEF Futurity, where he was the highest placed 3yo across all categories for that year and awarded Elite Premium for type, temperament and jumping ability. He has a top class pedigree that combines the performance of Handel II, with the phenomenal heritage of the legendary Don Carlos. Handels Classic is currently competing at foxhunter level and will be aimed at the 6 yo classes in 2012 both at home and abroad. He is a modern, expressive stallion, with light, elaborate movement and an intelligent temperament that combine in making him a very trainable athlete. His jump shows great care, athleticism & scope. A very exciting young stallion for the British sport and breeding programme, making him an ideal choice for any breeder intent on producing world class jumping horse for the future.

Limited Frozen semen available - £500 Contact Vikki Evans - 07598 508688 or visit our website - www.classicshowjumpers.co.uk

Elite Stallions

"We have a great selection of new stallions available for 2012 - Metall (father of Uthopia and Special D) and Temptation (by Tuschinski) both at only 1,000 euros + VAT; Voice, the very promising De Niro son with Edward Gal; Astrix, World Champion of both 5 year olds and 6 year olds, and the phenomenal Rock Forever. In jumping, Nonstop, the only son of Darco in the top 100 WBFSh list; Utrillo Z, a fantastic Grand Prix stallion who gives such great movement to his offspring; Billy King, a Lacros, a young Lord Pezi son (fantastic for attitude) who was Verden top lot. We will also now promote Quite Easy, Jaguar Mail and Ulmar Mail from Brullemail, as well as the Jaguar son Tresor Mail, who was 3rd in the 4 year old Eventing Final, and highest earner of all French 4 year olds 2011.

Similarly, many of last year's stallions are still there and proving themselves ever better - Cornet's Balou won the Bundeschampionat for 5 year olds; Cabrio van de Heffinck, Verdi, Desperados - all pre-selected as Olympic team horses; Johnson still winning competitions and proving himself further through sons such as Jack Sparrow (also available). Please phone for more updates, or keep an eye on the website.

The pound is strong against the euro - this month, the like-for-like stud fees, once converted to sterling, are 7.5% less than they were through most of last year! So take advantage of this before it changes - and the 5% discount on all orders completed before 31st March. I change the exchange rate weekly to mirror the market, so if it weakens, this advantage will slide."
